

MEMBER OF FAMELINE HOLDING GROUP

Fameline Holding Group is a multifarious conglomerate composed of some 38 companies active across a variety of sectors – chiefly, maritime, industrial, and oil and gas pursuits, alongside new areas of exploration, including satellite communication, healthcare and ICT.

FHG is headquartered on the Mediterranean island of Cyprus, itself bountifully situated at the crossroads of three continents.

FHG employs over 300 personnel globally and maintains further offices – and possesses within its embrace a network of local representatives and sales agents – in Dubai, Abu Dhabi, Shanghai, Singapore, Athens, Paris, Rotterdam, Groningen and Hamburg.

DEDICATE COMPANY

RioMar Services Limited is a company member of the Fameline Group.

- The company dedicates to the business with companies, members of GENPRO.
- RioMar is supported by the sales and operations of each individual Fameline company.
- The exclusive use of the principals of the Fameline Holding Group, who are in the majority of the cases the Genuine & OEM makers. This in combination with the use of own service engineers and the development of our own stock of important spare parts ensure:
 - (a) offering of high-quality spare parts
 - (b) competitive prices
 - (c) transparency for the origin of spares

SPECIFICATION OF ORIGIN & QUALITY STANDARDS

For every quote for equipment & spares, the following terminology is used:

GENUINE/OEM - Original Equipment Manufacturer

- The supplier of the assembled machine to the ship (genuine spares)
- The supplier of a self-contained sub component to the Primary OEM (i.e. the Turbocharger, Cooler, Pump etc)

OPM - Original Parts Manufacturer

A company which supplied components or minor sub components to one of the above, and the source can be traced

EPM - Equivalent Parts Manufacturer

A company which manufactures equivalent sub components or parts (to those used by the OEM) but which are not custom made for the OEM and

- a) perform a fully equivalent task
- b) are made to an ISO (or national equivalent) standards

KOREAN & JAPANESE ENGINES

KOREAN MAIN & AUXY ENGINES

Full-range of Genuine/OEM and OPM spares, from own stocks in Korea and Rotterdam for all engines built by:

- STX
- Doosan
- Hyundai

JAPANESE AUXY ENGINES

- Full range of OEM & EPM spares for Yanmar and Daihatsu
- All spares are made in Japan in full compliance with the original makers' specification regarding material, dimensions, tolerance etc.
- All parts are covered by ISP9001:2000 JQA standards and all major components are accompanied by NK Class certificate and one year operational warranty.

CHINESE MAIN & AUXY ENGINES

Through close collaboration with our Chinese branch office and with several Chinese makers, RioMar provides full-range of OEM/Genuine parts for all engines built by the CSSC (China State Shipbuilding Corporation) makers.

- HUDONG (HHM)
- ZHENJIANG (ZJMD)
- DAIHATSU ANQING
- DALIAN
- YICHANG (YMD)
- SHAANXI

HATCH COVERS & CRANES

HATCH COVER SPARES

High quality spares for hatch covers through OEM and subcontractors of OEM.

Wide range of rubber packings for many different brands of hatch covers including MacGregor, TTS, Macor, SEOHAE and Kvaerner.

CRANE/GRAB SPARES

High quality crane spares (Liebherr, MacGregor, Cargotec, TTS, IHI, BLM & Tsuji), spares for Smag Peiner grabs and also hydraulic spares for Parker, Rexroth, Hagglunds and Denison Hydraulics.

A large stock is maintained in own warehouse in Germany including a workshop to cover overhaul of hydraulic components, gearboxes, valves, electric components etc.

OTHER IMPORTANT MACHINERY/ EQUIPMENT

SEPARATORS, IMO PUMPS, PLATE HEAT EXCHANGERS & F. W. DISTILLERS

High quality OEM & EPM spares for separators (Alfa Laval, Westfalia & Mitsubishi), IMO pumps, Plate heat exchangers and Fresh water distillers.

FILTERS

High-quality filters for all marine applications through own stocks located in Germany.

COMPRESSOR SPARES

Full-range of high quality spare parts for almost all the European compressor makers (Sperre, Sauer & Sohn, Hatlapa, Hamworthy and Tamrotor). Offering competitive prices through own stocks.

SKF PRODUCTS & TECHNICAL SERVICES

- Bearings & Units/Lubrication Systems/Seals
- Coupling Systems/Chocking Solutions
- Condition Monitoring
- Shaft alignment and calculation software

OTHER IMPORTANT MACHINERY/ EQUIPMENT cont.

TURBOCHARGERS

Together with our partner who specializes in the supply (from own stocks in Belgium) of high quality European made spares & components for all ABB turbochargers and other makers such as MAN, Napier, Mitsubishi, KBB and Holset. All spares are accompanied with appropriate certification, operational warranties and Class certificates where applicable.

Our above company also provides global engineering support by experienced own engineers.

MOORING SOLUTIONS

Through our partner in Norway who specialises in deck equipment solutions, we can provide high quality equipment, spares and technical services.

- Windlasses designed for chain diameters from $\varnothing 58$ mm K3 and up to $\varnothing 122$ mm K3
- Mooring winches (OCIMF & BASIC) designed for a nominal pull fm 120 kN and up to 350 kN
- (OCIMF and Basic) winches for tankers, gas carriers and dry cargo vessels
- Competent engineering support, upgrade and modification of mooring arrangements.
- Aux products (brake testing equipment, maintenance equipment, lifting devices etc)
- Anchor and mooring winches spares for most wear and tear parts

OTHER IMPORTANT MACHINERY/ EQUIPMENT cont.

SCANJET

- Tank cleaning solutions
- Integrated monitoring, alarm and control systems
- Worldwide service network and 24/7 spare parts support

CATHELCO

- Marine growth prevention
- ICCP hull corrosion prevention
- Reverse osmosis desalinators
- Service engineers (servicing of ICCP/ MGPS/ ICAF systems)

KRAL

- Screw pumps, suitable for many different application (e.g. oil, bitumen, polyurethanes)
- 1:1 exchange of the most well-known pump makers (mechanical or hermetically sealed magnetic coupling fulfil the highest technical standards)
- Flow meters (combine characteristics of robustness and accuracy)

OTHER TYPES OF EQUIPMENT/ SUPPLIES/ MATERIAL

- **COMPRESSORS** - Atlas Copco & Alup (Genuine/OEM)
- **GOVERNORS** - Woodward & Regulateurs Europa (Genuine/OEM)
- **PUMPS** - all types (Genuine/OEM & EPM)
- **E-MOTORS** (Equivalent replacement motors)
- **MOORING & WIRE ROPES** (stock at several strategic locations)
- **ANCHORS & CHAINS** (stocks in Europe & Far East)
- **LASHING MATERIAL** (stocks in Europe & Far East)

ARGO NAVIS ENGINEERING CONSULTANCY SERVICES

ENGINEERING CONSULTANCY SERVICES FOR BALLAST WATER TREATMENT SYSTEMS

Through Argo Navis who is the engineering & consultancy partner of Fameline Holding Group we offer the following services for retrofit installations of BWT and Scrubber systems.

- Techno-economical studies
- 3D laser scanning
- Feasibilities studies for selected systems
- Engineering drawings for installation
- Supervision of the installation up to the final commissioning

RETROFIT INSTALLATIONS OF BWT SYSTEMS AND SCRUBBER SYSTEMS

Further to the engineering & consultancy services offered via ArgoNavis, RioMar is specialised in the supply of the various equipment and material required for the above retrofit installations and are out of the scope of the makers.

Such equipment and materials are:

- Transportation of the main BWTS or Scrubber
- Supply and prefabrication of GRE piping
- Cables and circuit Breakers
- Valves (Position indicators, gauges etc)
- Alloy20 pipes and fittings
- SS316 pipes and fittings
- Lighting and Fixtures
- Doors

UNDERWATER SERVICES & ULTRASONIC THICKNESS MEASUREMENT (UTM) SERVICES

UNDERWATER SERVICES

Worldwide network of reputable class approved diving contractors, providing all kinds of underwater services:

- Class Approved Permanent Hull Insert Repairs
- Class Approved in Water Surveys in lieu of dry-docking
- Hull Cleaning
- Propeller Polishing
- Propeller Repairs & Replacement

ULTRASONIC THICKNESS MEASUREMENT (UTM) SERVICES

- Ultrasonic Thickness Gauging of hull structure
- Steel Supervision during DD
- Non-destructive Testing (UT of welding seams, MPT, PT, ET etc)
- Rope Access Service
- Thermography & Vibration Survey

All above services are offered worldwide at short notice and are approved by all major Classification Societies.
